TIGERTRAX

ATV TIGERTRAX 2

If you're looking for the next level in performance, the Arctic Cat Off Road team has delivered! Building on the tried-and-true original TigerTrax system, we have brought you the next evolution in performance all-season tracks. Custom fit and optimized for your Arctic Cat Off Road ATV, the TigerTrax 2 will take you farther and allow you to climb higher. It's the most terrain-capable, all-season ATV track system available today. Improved flotation, increased ground clearance, optimized frame geometry, aggressive track design and significant increase in ground traction will give you the edge in deep snow, sand, swamps and the nastiest terrain. Simply stated, when there is terrain to be conquered and when you simply just need to get there, TigerTrax 2 will take you there.

NOTE: Requires Track Kit, Mount Kit and Clutch Kit, sold separately. Clutch Kit not required for XR, Alterra and TRV 1000.

ACX 15W-50 SYNTHETIC OIL

Arctic Cat Off Road's Full Synthetic 15W-50 is a heavier-viscosity formula of the original, proven Synthetic ACX 4-Cycle Oil. Formulated specifically for hot-weather use in Wildcat, Havoc, Stampede, Prowler and ATV models, it provides ultimate hot-temperature engine protection and prevents thermal breakdown in severe conditions. Can also be used in professional applications such as racing, construction, farm and ranch where the machine faces heavier loads and greater engine stress. NOTE: Not recommended for use in ambient temperatures below 32°F — heavier viscosity will make starting more difficult in extreme cold. Original Synthetic ACX (0W-40) engine oil recommended for all-season use.

PROPOSITION 65 WARNING

 **WARNING:** Cancer and Reproductive Harm - www.P65Warnings.ca.gov.

This WARNING applies to all items that can be ordered on this page.

All specifications, claims, prices and information contained within are based upon current knowledge as of September 1, 2019, and are subject to change without notice. Prices do not include freight, handling or setup charges. ATVs and ROVs can be hazardous to operate. Improper use can cause severe injury or death. All Arctic Cat Off Road vehicle operators should read the Owner's Guide for their vehicle before operating. All riders shown in this catalog are professional riders in a controlled environment. For your safety, each rider must wear a seat belt (if equipped); and use handholds/steering wheel, use doors and cab nets (if equipped), and stay completely inside the vehicle. For all Arctic Cat Off Road vehicles other than the Prowler EV, each rider must also wear an approved helmet, eye protection and protective clothing. Never operate on paved surfaces or public roads. Avoid excessive speeds and sharp turns, and be particularly careful on difficult terrain. Never engage in stunt driving, and never drive or ride under the influence of alcohol or drugs. Never carry a passenger in the cargo box or exceed seating capacity on an ROV; never carry a passenger on a single-rider ATV. Unless otherwise noted, Arctic Cat Off Road vehicles are only for operators who are 16 years of age or older who have a valid driver's license. The minimum operator age for the Alterra 150 is 14, and the minimum operator age for the Alterra 90 is 12. Riders younger than 16 require adult supervision. Arctic Cat Off Road recommends that all riders take a training course. For ATV safety or training information in the U.S., call the ATV Safety Institute at (800) 887-2887. In Canada, please contact the Canada Safety Council at (613) 739-1535 or see your dealer. For ROV training, visit <http://rohva.org>.
